

bioSite Planning Package

Subject: Madi

Module 5.2 Assignment: Ideas, Sketches, and Inspiration

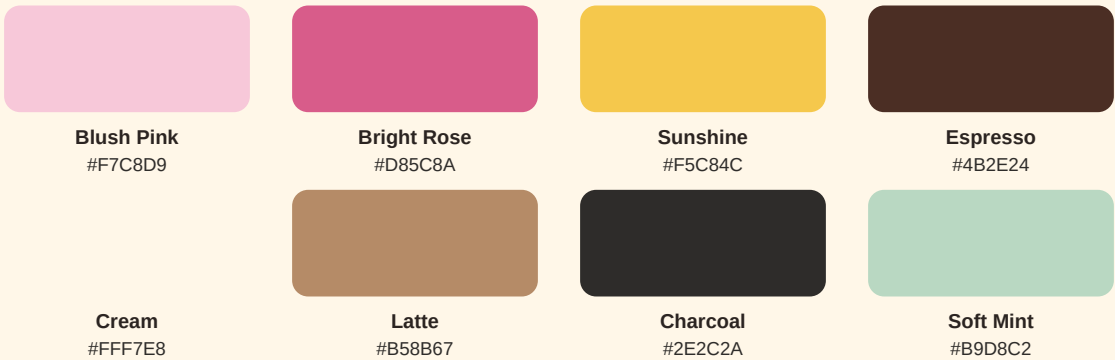

Prepared as a single PDF draft for the future landing, about, and hobbies pages.

Project	This bioSite will tell Madi's story through her bright personality, her career as
Focus	a teacher, her love of Disney, her coffee and espresso routines, her cats, and
	her future dream of a peaceful life near the beach.

Required project pages: landing page, about page, and hobbies page. Required final site content: Madi's name, at least seven images, at least 250 words of type, color, focused composition, good spacing, and at least one external link.

Front-End Style Guide

The visual direction should feel warm, bright, personal, and slightly whimsical. The palette uses soft pink and sunshine yellow for Madi's personality, espresso brown and latte tan for coffee, cream for page space, and mint as a calm supporting accent.

Typography	Headings: Helvetica Bold or a similar friendly rounded sans-serif. Body: Helvetica or another clean sans-serif for readability. Tone: clear, personal, warm, and lightly playful.
Buttons and Links	Primary buttons should use rose or espresso backgrounds with cream text. Links should use espresso or rose and show an underline on hover. Planned external link: Walt Disney World, https://disneyworld.disney.go.com/ .
Image Style	Photos should have consistent rounded corners, warm lighting when possible, and simple captions. Hobby images can use small category labels such as Disney, Coffee, and Cats.

Atomic Design Pattern Library

The final website will use reusable design pieces. These patterns keep the landing, about, and hobbies pages visually connected while still giving each page its own purpose.

Atoms	Colors, headings, body text, links, buttons, image captions, category tags, and small icons or decorative marks.
Molecules	Photo card with caption, quote block, hobby highlight, interview note, accomplishment callout, and external link button.
Organisms	Hero section, three-card hobby grid, about portrait section, accomplishment timeline, and footer/navigation area.
Templates	Landing page template for Madi's story highlights, About page template for portrait and biography, and Hobbies page template for Disney, coffee, and cats.

Planned Page Message

The main message of the site is that Madi's story is built from bright personality, meaningful work, small comforts, humor, and a clear dream for a relaxed future.

Wireframes and Layout Sketches

These wireframes describe the proposed layout direction. They are intentionally simple so the final coded pages can match the planning document while still allowing photo replacement later.

Composition Notes

The layout should use generous spacing, clear content sections, and image captions that help visitors follow Madi's story. The landing page introduces her, the about page formalizes her biography, and the hobbies page shows the everyday joys that make the story personal.

The final pages should match this direction: warm colors, rounded photo cards, a clear three-page structure, and visual emphasis on Madi rather than decoration alone.

Completed Interview

The assignment requires at least ten interview questions and subject responses. This planning package includes eleven responses gathered from Madi's interests, personality, accomplishments, and goals.

Question	Response
How would you describe yourself?	Madi describes herself as blonde, pink, and sunshiny, with a strong personality and a bright way of moving through life.
What are some things that make you happiest?	School breaks, Disney, coffee, her cats, and her husband are some of the things that make her happiest.
What do you enjoy most about Disney?	She especially enjoys Disney snacks, theme park rides, and the memories made with people she cares about.
What is your favorite Disney park or character?	Her favorite park is Magic Kingdom, and one of her favorite characters is Rapunzel.
What is a funny Disney memory you remember?	She remembers riding Aladdin's Magic Carpets with Kylie on a very hot day. Kylie joked afterward that they were not going out to dinner because they were having 'medium-well cheeks.'
What do you like about coffee or espresso?	Madi associates the taste of coffee and espresso with being productive, motivated, and ready to get things done.
What are your favorite coffee drinks?	Her favorite drinks include a Blondie or Smooth 7 with oat milk from 7 Brew, and a quad espresso with oat milk and syrup from Starbucks.
What do you enjoy about spending time with your cats?	She loves that cats are affectionate on their own terms, independent, comforting, and not overbearing.
What accomplishment are you proud of?	She is proud of completing her master's degree, her Ed.S. test, and her National Boards work within two years.
What is one dream for your future?	She dreams of retiring from teaching and living at the beach with ducks, a pond, maybe a cow, and possibly chickens and pigs if needed.
What is something people may not know about you?	Madi talks a lot, but she also listens closely and absorbs information that may help her later.

Formal Subject Biography

Minimum required length: 250 words. Current draft length: approximately 275 words.

Madi is a teacher, wife, cat mom, and Disney lover whose personality is as bright as the things she enjoys most. She describes herself as blonde, pink, and sunshiny, with a strong personality and a love for the people, places, and routines that make life feel joyful. Some of the things that make her happiest are school breaks, Disney, coffee, her cats, and spending time with her husband.

As an educator, Madi is dedicated, hardworking, and committed to growth. One of her proudest accomplishments is completing her master's degree, her Ed.S. test, and her National Boards work within two years. This achievement shows her determination and passion for teaching, as well as her willingness to keep challenging herself professionally. She is currently waiting for her National Board scores, which she will receive in December.

Outside of teaching, Madi enjoys the comfort of familiar routines and happy places. Coffee and espresso are part of her everyday rhythm because she connects the taste with productivity and motivation. Her favorite drinks include a Blondie or Smooth 7 with oat milk from 7 Brew, and a quad espresso with oat milk and syrup from Starbucks. She also loves Disney, especially Magic Kingdom, Rapunzel, theme park snacks, rides, and the funny memories made with people she cares about.

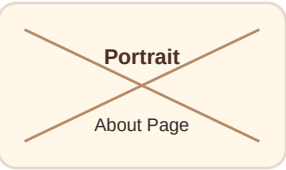

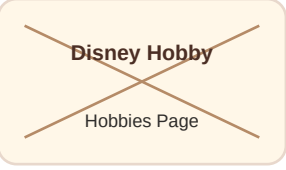

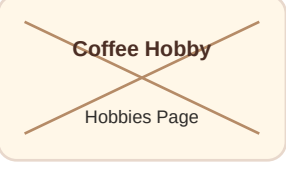

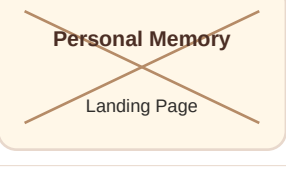

Madi's love for cats also reflects her personality. She appreciates that cats are affectionate on their own terms, independent, and comforting without being overbearing. Looking ahead, one of her dreams is to retire from teaching and live near the beach, surrounded by warmth, peace, animals, and a life that feels relaxed, joyful, and fully her own.

Planned About Page Use

This biography will be placed on the About page below a portrait image of Madi.

Image Plan

The final bioSite requires at least seven images. Real photos can replace these placeholders later. Each selected image should support the story and include a short caption or relevance note.

	Portrait photo of Madi smiling in a warm, natural setting. This will introduce Madi visually before the formal biography.
	Madi enjoying a Disney-related moment, park visit, Disney snack, or favorite Disney item. This supports her love of Disney, especially Magic Kingdom, rides, snacks, and Rapunzel.
	Close-up of Madi's favorite coffee or espresso drink. This connects to her daily routine and the way coffee makes her feel productive.
	Madi spending time with the cats at home. This shows her connection to her cats and their independent, affectionate personalities.
	Image representing teaching, graduation, professional work, or National Boards preparation. This highlights her dedication to education and professional growth.
	Image connected to an important memory, trip, or shared milestone. This helps the landing page tell a personal story instead of only listing facts.
	Image representing the beach, sunshine, animals, or a peaceful future home. This connects to her dream of retiring near the beach with animals and a relaxed life.

Final Project Checklist

This PDF satisfies the Module 5.2 planning deliverable and prepares the pieces needed for the later coded bioSite.

Requirement	Included in This PDF
Front-end style guide	Color palette, typography, button/link style, image style, and Atomic Design pattern library.
Wireframes, sketches, or prototypes	Landing page, About page, and Hobbies page wireframes with layout notes.
Interview	Eleven interview questions and responses.
250-word biography	Formal biography draft of approximately 275 words.
Seven images	Seven placeholder image descriptions with page placement and relevance notes.
External link plan	Planned link to Walt Disney World for the final website.

Next Step

When real photos are available, replace the placeholder image descriptions and keep the page roles the same so the final bioSite matches this planning document.
